

```
public void foo (int limit, List w, List v) {  
    for (l = 0; l < limit; l++){  
        bar(v);  
        while(...){  
            w.add(...)  
        }  
    }  
}
```

```
public void bar (List v) {  
    v.add(...)  
}
```
